

Pupil Premium Grant 2014-15

This year we have been allocated £42,500 to date (Autumn Term) . As in previous years the grant is used to support a variety of interventions both during school time and out of school, all of which help to develop children's skills. As before, we focus on removing barriers to learning by enhancing children's experiences and opportunities.

The decision of how to spend the grant is based on staff discussion and evaluation of the success of the previous year.

THRIVE

THRIVE is a programme which helps to develop children's emotional resilience, increase their self-esteem and therefore make better progress at school. We have continued to train staff and this year six additional staff are attending training. Following evaluation from the previous year staff use the THRIVE principles both in class and for individual sessions with specific children.

Saturday/Holiday Clubs, Play Splash sessions and School Special Events

We will continue to use a portion of the grant to support the costs of individual places at Fort Royal School, New Hope (Worcester) and Malvern Special Families (Malvern) Holiday Clubs. We have also introduced a new initiative of subsidised PlaySplash sessions using the hydrotherapy pool. .

Outdoor Learning

A portion of the grant continues to be used to fund a teaching assistant to support outdoor learning. Early mornings sessions have recently been introduced to help identified pupils settle when they first come in to school.

Outcomes for Pupils in receipt of Pupil Premium

We are very pleased with the outcomes for pupils who receive Pupil Premium. Each year the school analyses the progress of individual pupils and compares those who are entitled to Pupil Premium with others in the school. The following table shows the outcomes for pupils in Key Stage 2 for the past 3 years.
