

Children Chair

ABOUT THE EQUIPMENT : MAMMUT Childrens Chair

WHERE FROM & COST: www.ikea.com , £9

IDEAS OF USE: Perfect for small children to sit at and play, draw, or set the table for a cosy picnic in the garden. The furniture is light but steady and is suitable for outdoor or indoor use. Many children with autism have difficulty staying seated and benefit from active seating options to support attention and focus. Their sensory systems may be seeking more information in the form of fidgeting, and repositioning themselves. This seating may allow for movement in order to promote better engagement and redirect potentially disruptive fidgeting behaviours.

SAFE USAGE:

- Do not rock on chair as legs may break or child could injure themselves falling.
- Do not exceed maximum weight limit
- Use under supervision
