

Dark Den Sensory Pod

ABOUT THE EQUIPMENT: Easily set up with its pop-up construction, this dark den/sensory pod provides a safe and enclosed space where children can engage in sensory exploration. The dark den comes in a carry bag for easy transportation and is designed to provide a safe place or cool down spot for children who become easily overwhelmed by sensory stimuli. It offers a quieter, dark, enclosed space for the child to relax and have time to regulate their sensory system.

WHERE FROM & COST: www.amazon.co.uk, £53.99

IDEAS OF USE: Create a cosy darkened space with warm lighting and soft sensory resources for the perfect rest and reading area. Children can share a story with each other, or enjoy some quiet time on their own. Use different lighting options such as fairy lights, bubble tubes and fibre optics. Add lots of textured cushions and blankets inside to provide more comfort.

SAFE USAGE:

- Ensure inner wiring does not puncture mech and cause injury
- FIRE HAZARD do not subject to heat
