

# Mark Making

Mark Making  
with play dough

Using trains to make marks

Have fun with mark making!

Use whatever tools and equipment you have in the house. As well as pencils, chucks and pens use rice, lentils, sand, shaving foam and paint. Anything goes!

Take mark making outside when the weather allows.

It means it is easier to clear up and the children can get messy! Children love a bucket of water and brushes or a huge piece of paper to paint and every child loves a cardboard box!
