

LED Bubble Tube

ABOUT THE EQUIPMENT: The benefits of bubble tubes include :

- create a calm environment
- provide visual stimulation
- improve visual tracking of bubbles and fish
- teach cognitive skills (colours/sequences etc)
- to gain attention and start conversation.

WHERE FROM & COST:www.sensorydirect.com, £39

IDEAS OF USE: Enhance relaxation by placing in a sensory den or bedroom, encourage cause and effect learning by using the controller to change the colours and flow of bubbles.

SAFE USAGE:

- Fish inside bubble tube are a choking hazard, ensure these remain out of reach
- Ensure cap is secure to avoid water leakage
