ABOUT THE EQUIPMENT:

Spitzzy the funny Llama, is always hungry and makes lots of noise when he chews! Also, he's always burping and if you press his leg. . . he'll spit at you! Oh no his Jaw has become dislocated while he was eating! He's such an odd but very cute Llama! This is part of our switch toy selection and can be used with a switch (that will be provided) to operate. Great for developing cause and effect responses as well as motivation improving motor skills. Switches can be moved from different sides of the child to encourage use of non-preferred hand/arm.

IDEAS FOR USE:

Soft fur provides tactile calming stimulation.

Chewing and laughing sounds can be used for auditory stimulation.

Hugging Spitzzy and pressing his foot provides proprioceptive and tactile stimulation.
