

Pop Tubes

ABOUT THIS ITEM: Poppin' Pipes are fun and functional sensory fidget toys that pop, stretch, and connect. Snap, bend, pop, twirl and connect these tubes to provide tactile stimulation, fine motor skills and auditory feedback. These are highly durable and can withstand hours and hours of bending and stretching. The colours do not peel off and the tube is smooth for the young ones' hands.

These can be pulled and stretched. They create a popping sound when compressed and a wooing sound when stretched and twirled so the kids are constantly playing with them.

WHERE FROM & COST: www.amazon.co.uk, £8.99

SAFE USAGE:

- Not suitable for children under 3 years.
- Use under supervision
