

Sensory Compression Bed Sock

ABOUT THE EQUIPMENT : The Lycra Bed Sock fits over a single mattress giving a deep pressure experience. It will work wonders on children who have a difficult time unwinding, relaxing, and calming their body for sleep. The Lycra bed sheets stretches over the body and gives deep pressure that will calm and soothe an over-aroused, disorganised, or "fearful" nervous system. Whilst the lycra material is breathable it is not recommended to let children sleep with their head inside the bedsock.

WHERE FROM & COST: www.sensorydirect.com, £35.95
